

THE REALITY:

Your organization can't be agile if your people aren't agile.

Email overload

< 5%

The email response rate when employees receive over 100 emails a day

The smartphone effect

83%

Workers impatient with anything slower than texting or not having video/voice communications access when remote

The power of texting

90%

The amount of texts that are read within the first 3 seconds

The technology your team wants

Millennials who become more productive when they use their preferred technology

The necessity of team messaging

Respondents who said team messaging tools are helping with productivity and work efficiency

TEAM MESSAGING:

What can it offer?

Group and individual chat

Unlimited file sharing and storage

Task management

Shared calendars

Screen sharing and video

Integrations with other apps

GET AHEAD:

Beat your team to the finish line.

Employees are going rogue and using their own apps for business, otherwise known as stealth IT. Beat them to it or deal with:

- Increased risk of hacking and non-compliance
- No single vendor = rise in complexity
- Siloed teams that limit collaboration
- IT having no cost control
- Lack of phone system integration
- Inability to sync with company phone directory

YOUR SHOPPING LIST:

5 things to look for in a team messaging app

Security

IT vetting and control capabilities

Value

Usability

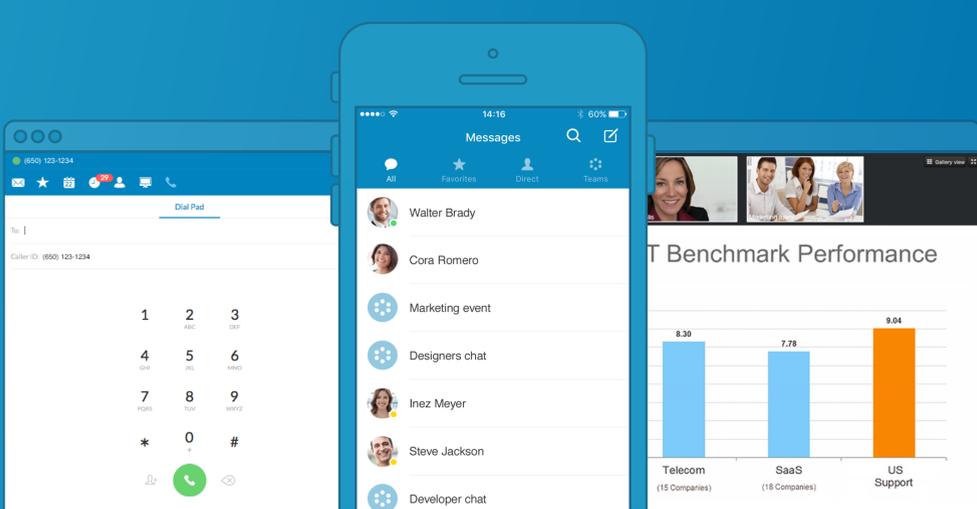

App integration

RingCentral Glip™ team messaging combines all the features and user-friendliness of the most popular consumer apps with the security, controls, and administration required by your business. It's the best of both worlds—user approved and IT vetted.
